They had just arrived in Silverton as I came from the mountain into cell range and there was a call from the OSC and there the were two block away headed up the mountain...seems the president was adamant about seeing the Mine...had to be he walked from the Suburban up to the adit at a brisk pace I might add...

Shoot I was told the PIOs were working that through the field this afternoon. I think the OSC must've been assigned to escort them, bc I wasn't aware an OSC wanted to tour.

As a heads up the Region 9 OSC showed up in Silverton around 5:00 pm with two vehicle loads with representatives from the Navaho Nation including the president I took them on a tour of the Mine and explained the what happened in the context of what we are trying to accomplish in a large and heavily mined mining district.

They were very cordial and appreciative...
